

Cooling Unit Service

Your all-round carefree package for the cooling unit

With the Schmitz Cargobull refrigeration unit service, you pay a monthly fee and are prepared for all eventualities. The cover includes all wear parts as well as repairs of cooling units. Schmitz Cargobull takes care of all handling processes and invoice verification. In addition, you have access to a digital vehicle file in real time.

New: The 'National Full Service' enables repairs and maintenance in the country of registration.

Modular Cooling Unit Service

Selection of operating hours:

Maintenance | Repair | Smart Services + Options

Maintenance | Repair | Smart Services + Options

Your advantages:

Significant reduction in workload and concentration on core business

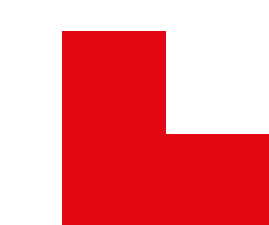

Cost savings and reliable calculation

Increased availability and service life of the chiller

Higher value retention of the cooling unit

■ included □ optional

*Included for 24 months with new vehicles

This is included for you:

- All **wear parts**, as well as repairs of the cooling unit
- Schmitz Cargobull takes care of all handling processes and invoice verification
- Constant **monthly instalment** over the agreed contract period
- **Digital vehicle file** in real time for efficient management of vehicle data

Good to know:

The Smart Service Update allows you to choose between the Alert Cool & Control Cool telematics tariffs according to your individual needs.

Highlights:

With the introduction of the new **S.CU dc85**, you receive your cooling unit service at particularly **attractive rates** thanks to the significantly reduced operating costs.

The **national service contract** option offers customers with a limited driving radius the option of restricting their repairs and maintenance to the country of registration, allowing **cost savings of up to 15%**.
