

100% SMART ex works

Every S.CS X-TOUGH curtainsider semi-trailer has the TrailerConnect® telematics system on board

All S.CS curtainsider semi-trailers are equipped with TrailerConnect® telematics as standard. You have immediate access to the telematics portal and the beSmart and beUpToDate apps from Schmitz Cargobull.

Your advantages are:

- **Efficient fleet management** with real-time information on the current status of the fleet for your planning.
- **Intelligent scheduling** that optimises routes and on-time delivery, avoiding empty runs.
- **Increased trailer availability** - better planning thanks to Real-time information minimises downtimes.
- **Reduction in process costs** for trailer capacity utilisation and personnel deployment.

Curtainsider S.CS X-TOUGH

Extra strong chassis for a permissible total weight of 44 tonnes more

The advantages at a glance:

- Bending and torsion-resistant X-TOUGH chassis
- Designed for high-frequency, heavy forklift entrances
- Galvanised, bolted MODULOS chassis - easy to maintain with a 10-year warranty against rusting through
- Optionally with VARIOS super structure up to 3,050 mm internal height
- High body strength certified in accordance with DIN EN 12642 Code XL, optionally with beverage certificate and DL Directive 9.5
- Time-saving, flexible load securing system
- POWER CURTAIN* certified for DIN EN 12642 Code XL with beverage certificate and DL Directive 9.5* and - new - POWER CURTAIN PLUS* certified for the transport of tyres and other non-rigid goods
- Lift roof and sliding roof for time-saving forklift and crane loading
- 100 % SMART - TrailerConnect® telematics ex works as standard. Hardware and basic service can be used immediately. tyre pressure check possible immediately if sensors* are fitted to the tyres

* Option

Height adjustment: The interior height is adjusted in two 50 mm steps using plug-in strips

Outstanding stability thanks to the **30 mm plywood floor**. Designed for high-frequency, heavy forklift entrances.

Schmitz Cargobull Safety Roof Integrated diagonal bracing increases body strength.

Ramp package Rear Package protects the rear portal and head frame from damage during loading. It consists of the reinforcement of the head frame in the chassis as well as Delta steel bumpers and compressible roller bumpers.

ROTOS axle with reliable braking effect thanks to 430 mm discs with intelligent air cooling at the axle head.

Integrated tyre pressure monitoring system: the correct tyre pressure reduces tyre wear and lowers fuel costs thanks to improved rolling resistance

S.CS X-TOUGH

Versatile in use

Beverage certificate

Daimler guideline

Tyre certificate

For permissible total weight from **≥ 44 to**

Increased structural strength certified according to DIN EN 12642 Code XL

Schmitz Cargobull Safety Roof

POWER CURTAIN* with integrated theft protection and simple load securing

ROTOS running gear: 1 million kilometres or 6 years warranty

Improved structural strength thanks to roll-profiled corner stanchions

LED combination rearlights with greater reliability

Chassis Warranty **10 years** against rusting through

TrailerConnect® telematics system

CTU hardware, activation and basic contract ex works included**

Rolled MODULOS chassis: Corrosion-resistant and easy to repair thanks to bolted and hot-dip galvanised technology.

The X-TOUGH chassis impresses with its high bending and torsional strength.

Load securing: A wide range of options, for example with a flexible load securing system.

POWER CURTAIN*: Structure without top slats for shorter loading and unloading times and greater work safety.

POWER CURTAIN PLUS*: Positive-locking loading of tyres and other non-rigid goods without additional aids.
