

The curtainsider semi-trailer S.CS X-TOUGH

# Extra strong chassis for high forklift axle loads

Are you looking for a solution for particularly demanding transport tasks? Then the curtainsider semi-trailer with a permissible total weight of 44 tonnes is the right choice. This is where maximum strength meets maximum versatility.

# Why is the S.CS X-TOUGH the best solution for you?

The robust floor with a load capacity of 9.5 tonnes is designed for frequent use with heavy forklift trucks. The galvanised MODULOS chassis ensures durability. With the lift and sliding roof, the versatile S.CS X-TOUGH is suitable for demanding transport tasks.

X-TOUGH chassis with high bending and torsional strength for 44 tonnes or more

The S.CS X-TOUGH chassis impresses with its high bending and torsional strength. With its higher distributed load, optimised weight and a cross member spacing of max. 400mm, the MODULOS chassis offers greater strength reserves.

9.5 tonnes floor load capacity

The 30mm plywood floor with an extended warranty of 36 months offers outstanding stability, is robust and durable. It has been specially designed for high-frequency, heavy forklift entrances.

Rear ramp package

Protects the rear portal and head frame from damage during loading. It consists of the reinforcement of the head frame in the chassis as well as delta steel bumpers and compressible roller bumpers.

Versatile, robust and durable.

An extra strong chassis for a total weight of 44 tonnes, designed for heavy forklift entrances and flexible load securing systems for more time savings - these are just some of the advantages of the trailer.

**Standard body:** The curtainsider's standard curtain is very smooth-running and can be opened and closed quickly and easily with just one hand.

**Load securing:** A wide range of equipment such as beams, curtains, straps and loops are easy to handle and can be positioned flexibly.

**POWER CURTAIN\* or SPEED CURTAIN\*:** Customised assembly options for fast, safe and time-saving loading and unloading.

information on  
the trailer

**Schmitz Cargobull Safety Roof:** Integrated diagonal bracing increases body strength.

The height-adjustable **VARIOS** body ensures simpler and more flexible dispatch. The interior height is adjusted in two 50mm steps using plug-in strips.

**ROTOS axle** with reliable braking effect thanks to 430mm discs with intelligent air cooling at the axle head.

# Cargo Transport - customised and well thought out.

As a strong partner for your success, we provide you with transport solutions and services you can rely on, for greater economy, efficiency and transparency in your fleet and along the supply chain.

Ex works in every  
**S.CS X-TOUGH**

**TrailerConnect® telematics** provides you with real-time data for greater transparency and efficiency in your fleet and supply chain. In the **TrailerConnect® portal**, you can manage all your fleet's telematics data centrally - across all manufacturers - on one platform.

With **Proactive Monitoring** for trailers, you can plan maintenance appointments in advance and ensure maximum uptime.

The **TrailerConnect® tyre pressure monitoring system** with autolocation assigns the integrated sensor to the correct tyre position. The sensor learns independently and records tyre pressure and tyre temperature data.

This means efficient fleet management, intelligent disposition, higher trailer availability and effective processes.

## Service contracts

Increase your uptime, create cost transparency and reduce your workload with **service contracts\*** for trailers and tyres.

You can rely on:

## The Schmitz Cargobull premium services and the competent partner network.

Customised financing and insurance from industry professionals

Second Hand – First Class Used in tested quality
